

Mercury

Hybrid Beit Alpha Cucumber

MERCURY is an exceptionally early and productive beit alpha hybrid cucumber. The plants are loaded with fruit and each fruit has outstanding sweetness, crisp flesh and a shiny dark green color. With just one bite, this cucumber will show you why it was named after something that is out of this world.

Maturity	50 – 55 days
Fruit Shape	Cylindrical (L/D=3.5)
Color	Dark Green/Glossy
Disease Resistance	Multi-virus Resistance, PMR
